Waterproofing Solutions

D4B offers following water proofing solutions with reputable manufacturers of water proofing chemical companies to cater the need of construction industry

- ➔ Basement Waterproofing.
- ➔ Terrace Garden Waterproofing.
- ➔ Sunken Area Waterproofing.
- ➔ Terrace Waterproofing.
- ➔ Water Tank Waterproofing.
- ➔ Factory Shade Waterproofing.
- ➔ Insulated Terrace Waterproofing.
- ➔ Injection Grouting.

Products & Services

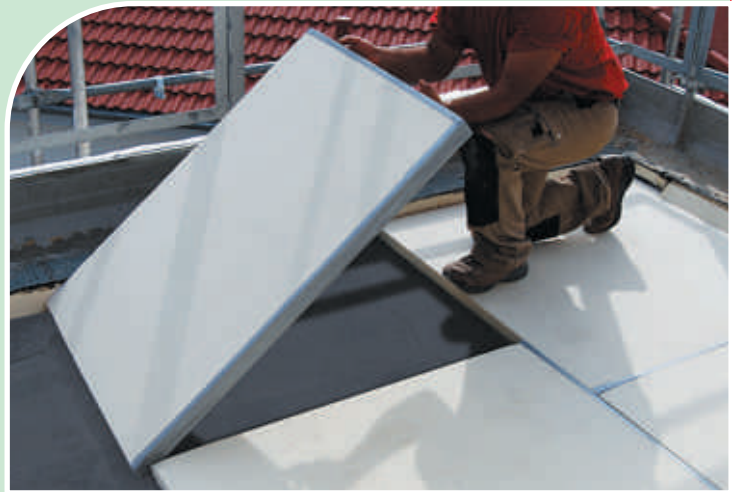

Waterproofing Solutions

Doctors4Building provides services of superior & technologically advanced waterproofing solutions to the Indian construction industry through skilled staff, reputable suppliers and highly trained installers with the most up-to-date, premium quality products available having been proven track record around the world.

At D4B, we understand that one of the major challenges for designers, engineers and construction companies alike is to protect buildings from the damaging effects of water and of not done from beginning carefully then happens CANCER to buildings. Our philosophy recognizes that while waterproofing protection can be a relatively minor component of overall construction costs, it is a vital ingredient to successful project completion and determines the building's longevity. We also understand that our stakeholders are looking for "tired & true" systems, and that one of the critical ingredients of any system is the installation. Our staffs are keen to work with you at all stages of your project. We will work with you from the design, including the development of the specification and installation details, right through to system installation. Our aim is to work toward achieving

- Basement Waterproofing.
- Terrace Garden Waterproofing.
- Sunken Area Waterproofing.
- Terrace Waterproofing.
- Factory Shade Waterproofing

- Water Tank Waterproofing.
- Factory Shade Waterproofing.
- Insulated Terrace Waterproofing.
- Injection Grouting.

Performance Flooring Solutions

Doctors4Building provides several Flooring Solutions to host of industry. These services are provided in accordance with the specifications of clients. Our flooring solutions are widely acclaimed for its work ability, durability and weather resistance. Due to its excellent strength and corrosion resistance, these are widely used in several industries for floor protection. D4B is your independent industrial floor contractor & specializes in seamless, polymer flooring systems. D4B utilizes the most advanced materials and the most trust brands in the manufacturer, products, style, and color. Whether you need industrial flooring for a few square feet to a million square feet, D4B will meet your industrial flooring demands.

D4B expertise starts well before the installation begins. From moisture vapor testing to core sampling, D4B utilizes the most advanced testing to ensure the best performance in seamless, polymer flooring within the resinous flooring industry. Additionally, D4B strives to work within your schedule in order to minimize downtime and production interference. Once the installation process begins, our professional in-house crew will work efficiently to install your floor with minimal disruption.

Protective coatings are designed to protect & enhance the life of concrete, initially at the time of installation it looks to be expensive affair but its benefits could be found out in the long run.

Performance Flooring Solutions

D4B offer following performance flooring solutions with reputable manufacturers of Epoxy & Polyurethane to cater the needs of several industries.

- ➔ Car Park Flooring
- ➔ Heavy Duty Warehouses Flooring
- ➔ Machine Rooms Flooring system
- ➔ Decorative Flooring solution
- ➔ Heavy Duty Workshops Flooring
- ➔ Clean Rooms Flooring
- ➔ Dining Hall Flooring

- Car Park Flooring
- Heavy Duty Warehouses Flooring
- Machine Rooms Flooring system
- Decorative Flooring solutions

- Heavy Duty Workshops Flooring
- Flooring for Food Processing Industries
- Indoor Game Floor Coatings
- Flooring for Hospitals

Complete Interior Solutions

D4B offers following complete interior solutions for residential and commercial projects

- ➔ Turnkey Painting
 - a. Interior
 - b. exterior
 - c. Wood and Metal
 - d. Wood Care
- ➔ Wall papers
- ➔ PVC, Aluminum Doors & Windows
- ➔ Claddings and Blinds
- ➔ Profiles & Trims
- ➔ Modular Furnitures
- ➔ Signages
 - a. Frosted Graphics
 - b. Laser Cut designs
 - c. Vinyle Cutting
 - d. Pictogram

Complete Interior Solutions

Doctors 4 Building is unique solution provider for your interior requirements, giving your dream home a new look with our professional advise, latest trends and dynamic workmanships. D4B has a family of product line to meet your aesthetic needs. We pride our selves in working with our clients to transform what might merely be a beautiful space into something truly extraordinary.

We place ourselves as one of the prominent Interior solution Company that has challenged the conventional way of thinking and thus given new dimensions to interior solutions.

- Wood & Metal Polish
- Wood Care Polish
- Modular Kitchen and Furniture
- Wall Paper
- Signages & Graphics

Doctors4Building Proposes Structural and Architectural Expansion Joint and Sealant Products by EMSEAL Joint Systems, Limited, USA

EMSEAL products are designed and manufactured to meet the demands of both the remediation of existing buildings and the maintenance of new structures.

EMSEAL products address the application demands of modern construction. From small details such as traffic point loads to larger concerns such as LEED certification and seismic design, EMSEAL is meeting the evolving demands of modern architecture and engineering. This catalog displays EMSEAL's architectural product line of joint sealant technologies.

COLORSEAL is a pre-compressed--primary plus secondary seal ideally suited to curtainwall and metal cladding systems, as well as concrete, brick, stone, precast, EIFS, etc.

For use in walls and wall systems, BACKERSEAL is an economical, high-performance, secondary sealant to field-applied caulking featuring EMSEAL's exclusive, microcell-modified, acrylic impregnation technology. BACKERSEAL:

EMSHIELD WFR2 features dual-sided silicone sealing surfaces adhered to a fire-retardant impregnated foam backing. Both sides of the expansion joint are waterproof and fire-rated.

SEISMIC COLORSEAL is ideally suited for ensuring watertightness in vertical-plane structural, seismic, and abutment joints in walls of precast concrete, brick, curtain-wall, stone, etc.

The DSM SYSTEM builds on a track record of over 30 years of sealing horizontal plane and below-grade expansion joints with impregnated foam sealants.

SJS-FR1 (1-hour rated) and SJS-FR2 (2-hour rated) are designed to provide a watertight, fire-rated, trafficable joint system in 4-inch (100mm) through 10-inch (250mm) joint openings, in decks including parking decks, stadium concourses, stadium treads and risers, and other horizontal plane applications in any structure.
